Everything you need to customize and manage your app, engage your users, and grow your business u organization on mobile.

CONTACT CATEGORY :: PROMOTE YOUR BUSINESS
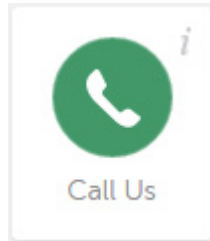

| About Us	Contact Us	Call Us	Email Us	Map	Branches

About Us
Add an About Us page to tell users who you are or what your business is all about. Make it easy for users to find everything they need to know about your business, including your hours, links to your social channels or website, or any other useful information.
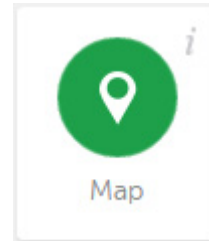

Contact Us
Make it easy for your app users to get in touch. Offer them one page that they can use to call you, email you, visit your website, or find your business on a map.
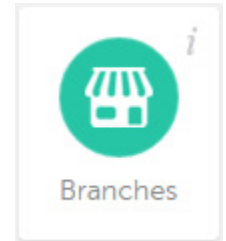

Click-to-Call
Get more calls by enabling users to call you directly at the tap of a button. If you have a second phone number, simply add another Call Us page and two Call buttons will appear on the app.

Email Us
Enable users to email you at the tap of a button.

### Directions & Maps
Display the exact location of your business, events, or branches right on the app, making it easy for users to get directions.
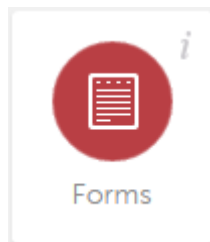

Branches
Make it easy for on-the-go customers to access each of your business' locations. You can let your app users get in touch with any of your branches, find directions, order food, book a table, or schedule an appointment.
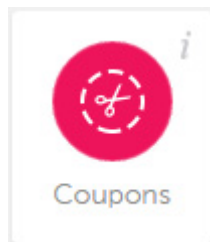

RECOMMENDED CATEGORY

| Catalogs	Forms	Coupons	Loyalty Cards	Scratch Card	Photos

Collections & Catalogs
Give customers a convenient way to browse your products, services, or foods while on the go. This feature lets you showcase your items in custom categories and include images to show your customers exactly what your business offers.
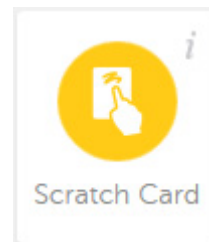

Forms
Create a Form to provide users with an easy way to communicate with you right through the app. This feature enables users to send feedback, report issues, ask questions, or join your mailing list, as well as share locations and upload photos.
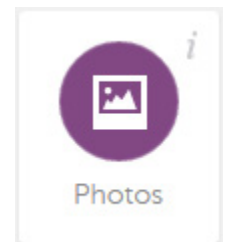

Coupons
Drive more traffic to your store and increase sales by offering app users coupons and special offers for your products or services. Users can share the coupon with friends, helping you further promote your store and attract new customers.

Loyalty Cards
Increase customer loyalty and encourage repeat business. Users collect stamps each time they make a purchase and get rewards when they complete the card. It's a great way to keep users coming back for more!

Scratch Card
Give your customers another reason to visit your business: a fun chance to win great prizes! Let them try their luck with a scratch card to see if they win the jackpot.

Photos
Post photos of your products, company, team, or events by easily connecting your photo-sharing services like Picasa, Tumblr, Flickr, Instagram, SmugMug, and more.

MONETIZATION CATEGORY:

Make money with mobile advertising, coupons, ecommerce, and other advanced revenue generating app features.
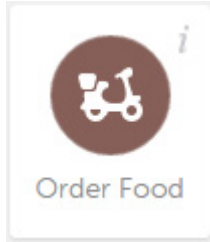

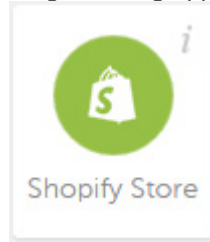

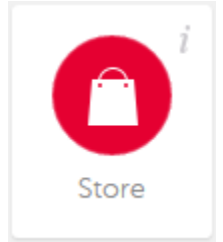

E-Commerce
An e-commerce page make it easy for users to purchase products and services from your online store, including Etsy, Shopify, and others.

Book a Table
Drive more traffic to your restaurant and increase revenue by letting users make a reservation right through the app.

Menus
Whether it's breakfast, lunch, or dinner time, let users view your menu right through the app. Simply grab your existing online menu from SinglePlatform or Allmenus and add it to your app in seconds.
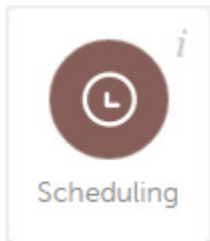

Order Food
Satisfy users' hunger any time of day by letting them place orders on the go. Simply add your restaurant page from GrubHub, Seamless, Eat24,or any of the other food delivery services.
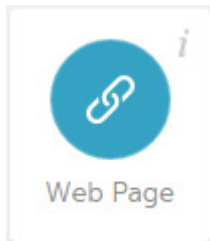

Shopify Store
Drive sales and make the most of your Shopify store by connecting it to your app. Simply integrate your store into your app to let mobile users browse your catalog and buy products from it.
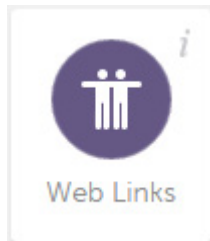

Store
Increase sales by letting users conveniently browse your catalog and make purchases while on the go. Simply add your products, set up your checkout, and let users buy from you– anytime, anywhere.
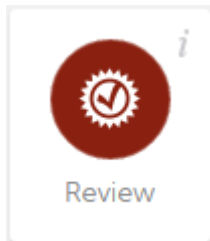

Scheduling
Make it easy for users to book appointments or sessions while on the go. You can integrate your scheduling pages on Appointy, Booker, Genbook, Schedulicity, and other platforms directly into your app.

Web Page
Add this feature to enable users to open external web pages right through the app. For example, if you're a charity organization, you can include a link to your fundraising page.

Web Links
Provide users with a list of links to useful resources or external web pages that may interest them. For example, for an event app, you can include links to sponsors' websites.
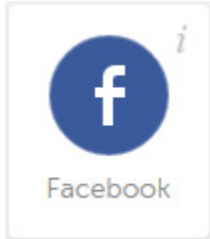

Reviews
Promote your business and attract new customers by displaying user reviews from services like Yelp, Citysearch, and more.
