

Everything you need to customize and manage your app, engage your users, and grow your business u organization on mobile.

CONTACT CATEGORY :: PROMOTE YOUR BUSINESS.

About Us & Branches

Make it easy for customers to find out all they need to know about your business, including your hours, how to visit or get in touch, links to your website and Facebook page, and information on each of your locations, find directions, reviews, menu, order food, book a table, or schedule an appointment.

Contact Us

Make it easy for your app users to get in touch. Offer them one page that they can use to call you, email you, visit your website, or find your business on a map.

Click-to-Call

Get more calls by enabling users to call you directly at the tap of a button. If you have a second phone #, simply add another Call Us button.

Directions & Maps

Display the exact location of your business, events, or branches right on the app, making it easy for users to get directions.

Forms

Create a Form to provide users with an easy way to communicate with you right through the app. This feature enables users to send feedback, report issues, ask questions, or join your mailing list, as well as share locations and upload photos.

Book an Appointment or Scheduling

Make it easy for users to book appointments or sessions while on the go. You can integrate your scheduling pages on Appointy, Booker, Genbook, Schedulicity, Setster and other platforms directly into your app.

Email Us

Enable users to email you at the tap of a button.

RECOMMENDED CATEGORY :: DRIVE YOUR CONTENT.

Photos

Post photos of your products, company, team, or events by easily connecting your photo-sharing services like Picasa, Facebook, Tumblr, Flickr, and more.

Video Gallery

Showcase your marketing videos, how-to videos, tutorials, and more by connecting your video channels.

Audio Music

Add your audio playlist from SoundCloud, Beatport, Media RSS and other audio platforms so your users can enjoy all your favorite hits.

PDF

Enhance your app by adding pages in PDF format. You can include anything from menus to posters to sales brochures.

Book a Table

Drive more traffic to your restaurant and increase revenue by letting users make a reservation right through the app.

ENGAGE USERS

REPORTS & FORMS
Provide an easy way for users to report issues, send feedback, schedule meetings, and more.

Everything you need to customize and manage your app, engage your users, and grow your business u organization on mobile.

MONETIZATION CATEGORY :: LOYALTY AND SALES.

Make money with mobile advertising, coupons and ecommerce and other advanced revenue generating app features.

Coupons

Drive more traffic to your store and increase sales by offering app users coupons and special offers for your products or services. Users can share the coupon with friends, helping you further promote your store and attract new customers.

Loyalty Cards

Increase customer loyalty and encourage repeat business. Users collect stamps each time they make a purchase and get rewards when they complete the card. It's a great way to keep users coming back for more!

Scratch Card

Give your customers another reason to visit your business: a fun chance to win great prizes! Let them try their luck with a scratch card to see if they win the jackpot.

Store

Increase sales by letting users conveniently browse your catalog and make purchases while on the go. Simply select your online store like Shopify, WooCommerce, Magento, Volusion, Etsy and other, or use Como free store builder, add your products, set up your checkout, and let users buy from you—anytime, anywhere.

Collections

Give customers a convenient way to browse your products, services, or menus while on the go. Simply select your online menu service, or use Como's free menu builder which lets you showcase your items in custom categories and include images, prices, and descriptions.

Food Delivery

Satisfy users' hunger any time of day by letting them place orders on the go. Simply select your online delivery service, from MyCheck, GrubHub, Online Ordering, Olo, Seamless, Eat24, ONOSYS and any of the other, or use Como's free delivery menu builder.

SOCIAL CATEGORY :: ENGAGEMENT, SHARE AND TELL A FRIEND.

Facebook

Facebook

Add a Facebook page to your app to keep your fans updated on all your latest news. It's an effective way to reach new users and build your mobile community.

Twitter

Twitter

Connect your Twitter profile to give your followers real-time tweets right through the app. It's a great way to engage users on the go and make sure they're the first to know about exciting promotions or updates.

Instagram

Instagram

Enhance your app by enabling users to engage with your Instagram photos anytime, anywhere. Showcase your products and services, share photos of your team or company events, and represent your brand or business through images.

News

News RSS

Keep users updated with your content by integrating feeds from your blog, radio station, or other media source.

Events

Events

Make sure users never miss your big day by letting them track your events and purchase tickets via online ticketing platforms integrated with the app. Let users track your events with Facebook, Google Eventbrite, Eventful, and Songkick.

ENGAGE USERS

PROMOTIONAL TOOLS

Get more downloads with our complete set of promotional and social sharing tools.

PUSH NOTIFICATIONS

Engage with users directly by sending alerts, offers, and updates using geo-targeted push notifications.

ENHANCE CATEGORY :: ADD AND PROVIDE CONTENT.

Web Page

Web Page

Add this feature to enable users to open external web pages right through the app. For example, if you're a charity organization, you can include a link to your fundraising page.

Web Links

Web Links

Provide users with a list of links to useful resources or external web pages that may interest them. For example, for an event app, you can include links to sponsors' websites.

Review

Reviews

Promote your business and attract new customers by displaying user reviews from services like Yelp, Citysearch, and more.

Custom

Custom

Want to add content to your app, but can't find the right feature for it? Create a page for your app from scratch using our rich text editor.
